Education

Bachelor of Science in Computer Science   2018 - 2022

Model College (Mumbai University)

I have a strong academic background in Computer Science, with a CGPA of 6.76 . During my studies, I gained practical experience through freelancing, working on various projects to enhance my programming skills.

Experience

Event Coordinator   2018 - 2020
KY Events

During my studies, I gained valuable hands-on experience by working on various event management projects for renowned real estate developers like Lodha and Runwal.

Freelance Web Developer   2020 - 2021
Freelance Work

While pursuing my degree, I proactively gained practical experience by freelancing as a web developer. I worked on various projects, honing my skills in web design, development, and problem-solving

Front-End Developer   2021 - Mar 2025
AWElabs Infotech LLP

As a Front-End Developer, I designed and developed user-friendly web interfaces using HTML, CSS, and JavaScript. I collaborated with back-end developers to ensure seamless integration of front-end and back-end components.

Portfolio

College Admission System

Developed a Django Python-based college admission system, streamlining the application process with features like online form submission, document verification, and merit-based seat allocation.

ERP/CRM Applications

Implemented a comprehensive CRM solution for firm to manage client relationships, track cases, and automate routine tasks, improving overall efficiency.

E-commerce Applications

Built e-commerce platforms for eg. clothing and jewelry brands, enabling users to browse products, add items to cart, and make secure online payments, enhancing the overall shopping experience.
